FOREIGN AND NATIVE QUACKS, who know little of the nature and character of Special Diseases, and LESS as to their cure Some exhibit forged Diplomas of Institutions or Corleges, which never existed in any part of the world; others exhibit Diplomas of the Dead, how obtained, unknown; not only assuming and advertising in names of those inserted in the Diplomas, but to further their imposition assume names of other most celebrated Physicians fong since dead. Specific Antidote, \$c.. both relying upon its effects in curing a few in a hundred, it is trumpeted in various ways throughout the land; but ALAS! nothing is said of the balance; some of whom die, others grow worse, and are left to linger and suffer for months or years, antil relieved or cured, if possible, by competent physic ans.

BUT ALL QUACKS ARE NOT IGNORANT.

Nothwithstanding the foregoing facts are known to some Quack the ors and Nostrum Makers, yet, regardless of the tife and health of others, there are those among them who will even perjure themselves, contradicting giving marcury to their pat ents or that it is contained in their Nostrums, so that the "newal fee" may be obtained for professedly curring, or "the dollar" or 'fraction of it" may be obtained for the Nostrum. opy of Photograph from Life of L. A. BROWN, showing the effect of STERLING'S AMBROSIA in eighteen months.

This is to certify that, about withteen months ago, I commenced using Streaming's America. My hair was short, thin, and rapidly falling out. I had tried many Hair Tonics, Invigorators, &c., without receiving any benefit. Soon after using the Ambrosia, my hair ceased falling out, and commenced growing so rapidly as to stonish me. Now my hair is thick, soft and glossy, and is five feet four inches in length—when let down reaching the floor. This wonderful result I stribute solely to the use of Straming's America, as since I commenced using it I have applied nothing else to my hair.

Scald Head, Sore Eyes.

From Harvey Sickler, Esq., the able editor of the Tunkhannock Democrat, Pennsylvania.

Our only child, about three years of age, was attacked by pimples on his forehead. They rapidly spread until they formed a loathsome and virulent sore, which covered his face, and actually blinded his eyes for some days. A skilful physician applied nitrate of silver and other remedies, without any apparent effect. For fifteen days we guarded his hands, lest with them he should tear open the featering and corrupt wound which covered his whole face. Having tried every thing clss we had any hope from, we began giving your Sarsapanilla, and applying the iodide of potash lotion, as you direct. The sore began to heal when we had finished the second. The child's eyelashes, which had come out, grew again, and he is now as healthy and fair as any other. The whole neighborhood predicted that the child must die."
